When I was a young boy, school was very different than it is today. It wasn't fun! I was a good student, always reading and studying. I was the top of my class in Maths! I was scared of my teachers and I was very quiet in the classroom. My best friend, Joy, was very talkative and funny, not like me, and she was always in trouble with the teacher. Poor Joy! I was good at sports, I was on the swimming team and the running team. When I was eleven, I was the regional 5km running champion! But I was never very good at painting or drawing.

Last week, I was on holiday with my family. It was fantastic! The hotel was in a beautiful park. There were lots of trees, there was a river and bike paths. In the hotel, there was a swimming pool and a games room. There were lots of activities and things to do every day. There were horse riding and wall climbing classes. There were basketball and tennis courts, but no football fields. Everybody was really friendly. At night, it was very quiet because everybody was exhausted!
